

# Interracial Chess Group Formed Here

---

An interracial chess group for young men of college and high school age is meeting Friday nights at quarters of the Cosmopolitan Chess Club, 2180 W. Adams. Instruction and playing privileges are all free, and have drawn recruits from City College, Loyola University, Jefferson High and other schools.

Many more young Negro chess players are needed, group leaders say, to keep pace with the rapid increase in white membership. The youngsters are currently analyzing games of Ohio's new state champion, Walter Mann, a university student and the first Negro to win a state chess title.
