O-1

(a) White threatened 15. Be6. Black's king position is very suspicious, while white organizes his attack.

(b) The time control was 45/90. Black now had 7 minutes for 28 moves. After playing Ke8, I began to look at the sac Nf7 with fear, when suddenly...

(c) White should probably accept the draw with 24. Qh8, Kf7- except that he wants to gamble on black's time trouble.

(d) O-O-O! (e) White has plenty of time, but is demoralized.
