WHY NOT A NORTHERN CALIFORNIA CHESS ASSOCIATION?

Chess activity in Northern California has greatly increased since the war. New clubs have sprung up and old ones have obtained a new lease on life. The Redwood Empire League has successfully completed its first season, while the Bay Area and Central California leagues will get under way this Fall. The North co-captains, Guthrie McClain and Wade Hendricks, have twice succeeded in getting more than fifty players to Atascadero for the annual North-South match. The North team, which previously had been mainly composed of Oakland and San Francisco players, has now expanded so that it is representative of the whole section. We have been represented in the U.S. Championship by Mr. A. J. Fink, and are fortunate in having a renowned master make his headquarters in Santa Rosa. Certainly, these are transcendent strides in comparison to the slow pace of Northern California Chess in the pre-war days.

However, there are at least two things still lacking. First, we do not have adequate newspaper coverage of our various events, and second, we lack an organization to coordinate the activities of the various clubs and leagues. There are others better qualified to discuss means of obtaining the first point, but the writer wishes to point out some advantages to be gained from a Northern California Chess Association.

The New Deal in the State Chess Association is certainly worthy of support, but California Chess will always have a geographical problem confronting it, when attempting to organize on a statewide basis. Chess in this state will naturally revolve around Los Angeles and San Francisco, which are nearly 400 miles apart. With the possible exception of Fresno and Atascadero, there are no clubs which have more than rare contacts with both of these centers. The problem of coordinating chess in the North and South differs only in degree from that of coordinating chess in California and New York.

The Southern California Association has been functioning successfully for several years. With a similar body in the North, the State Association could confine itself to matters of policy, and sponsoring a bona fide State Championship and the Annual North-South match.

In addition, there are benefits to be derived by Northern California. A greater opportunity for organized play among the various leagues, clubs, and players would result. Also, such an organization would facilitate the formation of the team for the Atascadero match, which is becoming more of a task than one or two men can reasonably be expected to perform alone.

POSTAL CHESS GAMES

Editor: Mr. R. D. Taylor 129 Rey St.
San Francisco 4, Calif.

Salutations and welcome, Postal Players! It was something of a temptation to begin with "Greetings, Postal players," after the manner of radio posts. However, we thought better of it, inasmuch as some of you younger ones will be receiving soon the Greetings to end all Greetings!

Below you will find entries and ratings listed. Here will be published in the next issue. When the regular postal chess entries are taken care of, we will have two special events. One of particular interest and exclusively for High School students and undergraduates and the other open to all, regardless of age or playing strength.

Before we can walk, we must crawl and we must walk before we can run. So, let us have your entries promptly.

STRONG PLAYERS

Mr. D. Amicus	San Gabriel, Calif.

California Chess News contributor writes from INDIA - Bombay, India by S. H. Tavaris - "Here in Bombay we held a tournament. We had 75 entries. The competition was great. Two players tied for the first place and four players tied for the third place. The first prize was a beautiful mahogany miniature table. Top, one foot square. The top was of solid silver. The face was a chess board having gold and silver squares. On it were seven pieces - a beautiful chess problem. Over and above this the winner received 101 rupees. When the prizes were distributed, a party was given to the top twenty players. A cake about 1 1/2' square and 5" high, of delicious mixture had an icing top of sugar and chocolate as a chess board and had icing set of chessmen. The winners who tied for the first place played a game and drew. Opening R. Lopez. Here, we are becoming more and more chess minded."

A few excerpts of letters to the Editor:

From Harry B. Corlett, Berkeley
"I extend my congratulations to you for giving chess a shot in the arm and especially for your interesting CALIFORNIA CHESS NEWS."

From E. H. Neubert, Graceland, Calif.
"Your most recent News is very fine and I want to congratulate you on it. More power to your splendid effort!"

From H. E. Fongelly, New Westminster, B. C. Canada. "Your publication was found to be very interesting and for which many thanks."

From Kester Swendsen, Norman, Oklahoma
"I am enjoying my subscription to the News very much."

From Jim Cross, Glendale, Calif.
"The tenth issue of CALIFORNIA CHESS NEWS was really swell! It is improving by leaps and bounds. The addition of a postal chess tournament will undoubtedly increase interest (and subscriptions, too) in the mag."
From William Steckel, Los Angeles.

"I am in receipt of your publication and needless to add I was extremely pleased with the contents contained therein."

From Marvon Newcombe, Los Angeles, Cal.
"Fine chess paper you are getting out."

We could go on and on telling you about the encouraging comments we have received. Our aim is to be a printed magazine (and it won't be long now) but to that end we need your support. Get your friends to subscribe to CALIFORNIA CHESS NEWS!

MASTERS OF TODAY

By: Abe Yanofsky

Article I

Hungary's outstanding master, Laszlo Szabo, is a familiar name in the chess world today. Besides winning the Hungarian championship, he has scored much success in European tournaments, his latest triumphs being the winning of the 1947-48 Hastings tournament and placing second in the Stockholm Tournament August 1948.

His clever and combinative skill is amply demonstrated in the following brilliancy, which will go down in chess history as another gem of immortal chess.

White: L. Szabo Black: Muehring

The Knight's Defense

- 1. P-K4 P-K4
- 2. N-KB3 N-QB3
- 3. B-B4

More in vogue today is 3...B-N5 leading into the powerful Ruy Lopez whose strength has been proven time and again.

- 3. ... N-B3

Wisely avoiding 3...B-B4 4.P-QN4? the dangerous Evans's Gambit, whose policy of sacrificing a pawn for quick development and attacking possibilities has never definitely been refuted.

- 4. P-Q4

The alternative is 4.N-N5, when there could follow 4...P-Q4; 5.PxP; N-QR4; 6.B-N5ch, P-B3; 7.PxP, PxP; 8.B-R4 with a slight edge to white.

- 4. ... PxP
- 5. O-O NcP

Risky would be 5...B-B4 transposing into a dangerous line of the Max Lange

- 6. R-K1 P-Q4
- 7. BxP QxP
- 8. N-QB3 Q-KR4?

Not the best. To be recommended is 8...Q-QR4; 9.NdN, B-K3 with equality. This inexactitude allows Szabo to adroitly exploit Black's awkward position.

- 9. BcN B-K3

- 10. B-N5!

If Black is allowed to castle, then his difficulties are over!

- 10. ... P-KB3

- 11. B-B6!

Now the misplacement of Black's queen becomes evident as 11...PxB loses the Queen.

- 11. ... Q-Q4

A good try would be 11...B-K2; 12.BxNf, B-KN1; 13.N-B6ch, BcN; 14.BxB, Q-N3! with excellent counterchances. The way Muehring shifts his Queen around from now on indicates that he has no defi-

nite plan of procedure against the oncoming avalanche foretelling his doom!

- 12. P-B3 P-Q6
- 13. N-Q4 BcN
- 14. PxB Q-QR4
- 15. QxP B-QN5
- 16. P-Q5!!

The onslaught now begins.

- 16. ... QxP(Q4)

Black must not castle into safety at any cost.

- 17. ... BcR
- 18. BxB Q-QR4
- 19. B-B3 Q-Q4
- 20. QxBP

To Prevent once and for all 20...O-O-O and permanent safety.

- 20. ... B-Q1

If 20...O-O; there could follow 21. Q-N3, P-B3; 22.BxPch, BcN; 23.BcR winning.

- 21. B-N4 B-Q2
- 22. Q-N3! P-B3
- 23. Q-N8ch N-B2

Setting an imaginary trap for white's queen. However, the game is now gone anyway, so what can he lose,

- 24. QxR B-Q1
- 25. Q-K7 B-B4
- 26. N-N5ch! Resigns

INTERNATIONAL

THE STOCKHOLM TOURNAMENT!

The second elimination tournament for the championship of the world (the first was the tournaments in the four zones) has just finished, after a month of difficult battling. Szabo, who was leading up to the seventeenth round, drew against Stoltz in the eighteenth round, but lost to Lundin in the final round and thus managed to lose first place to the young Russian master, Bronstein. The final standings were as follows:

1. D. Bronstein (U.S.S.R.) 13½; 2. L. Szabo (Hungary) 12½; 3. L. Boloslavsky (U.S.S.R.) 12; 4. A. Kotov (U.S.S.R.) 11½; 5. A. Lilienthal (U.S.S.R.) 11; 6.-9 I. Bondarevsky (U.S.S.R.); 8. Flohr (U.S.S.R.); 11. Majdorf (Argentina); G. Stahlberg (Sweden) 10½ each; 10. P. Trifunovic (Yugo) 10; 11-13 E. Book (Finland); S. Gligoric (Yugo); V. Pirc (Yugo) 9½ each; 14-15 V. Ragozin (U.S.S.R.); D. Yanofsky (Canada) 8½ each; 16. S. Tartakover (France) 8; 17. L. Pachman (Czech) 7½; 18. G. Stoltz (Sweden) 6½; 19. L. Steiner (Australia) 5½; 20. E. Lundin (Sweden) 4½.

190 games were played. White won 49, Black 34 and 107 games were drawn! On 20 games of the 11th and 17th round, 16 were drawn. The most combative round was the 14th, in which 8 games won. The third elimination tournament for the World Championship, which will bring forth the challenger of Botvinnik, will comprise the following players: Smyslov, Keres, Bronstein, Boloslavsky, Kotov, Lilienthal (U.S.S.R.) Roshevsky, Fine (U.S.A.) Szabo (Hungary) Bune (Holland).

(a) Black gives away this pawn for the purpose of opening up for himself QR and QN files and hopes to exert pressure upon White's O-side by posting KB at KN2. This idea is interesting but its correctness is open to question. White's position has no weakness and eventually the extra pawn will count.

(b) Relieving the black queen from an unpleasant duty of protecting the KP. With the next two moves, white strengthens his O-side.

(c) Does not want to part with his bishop.

(d) Looks as if Black has a fair chance to regain the pawn through the threat R-NL or R-K2. But white is ready for him with

a neat combination.

(e) Threatening N-K7ch and pinning the CNP. Probably black did not foresee white's "quiet" reply.

(f) Necessary, because of the mate threats on blacks first rank. If now 24...RcP; 25. N-R5, R-N4; 26. R-P.

(g) Nice combination! If black takes the knight, then 26...RcR; 27. R-R, R-N; 28. N-K1, R-N; 29. R-R, R-N; 30. P-N7, R-NL; 31. P-QR4 and black is helpless; or 26...RcP; 29. R-R, R-N; 30. R-N8ch, B-B1; 31. B-KR6 and mate follows.

(h) Black tries to stop the QR pawn, but the white king decides the issue. (Notes to this game by A. Konstantinopolski) Translated especially for C.C.N. by N. Russ.

CARL SCHLECHTER, COFFEE HOUSE TERROR
By Milton Finkelstein-New York

Carl Schlechter, one of the grand old men of the Emanuel Lasker era, has long been known by the nickname, "The Drawing Master." Like George Shainsmit in the United States, Schlechter's career was full of opportunities for aggressive play which were discarded for safe variations which gained easy half-points. The result was a long series of second and third places in tournaments. One might almost say that Schlechter only won when the position insisted upon it!

Schlechter's caution deserted him whenever he entered one of Vienna's many coffee-houses. Games were always played for a stake, and no player could make an evening worthwhile unless he won quickly and frequently. Schlechter was a terror at the busy Cafe Korb, where he would give amazing financial odds. As his skillful ability increased, he found it more and more difficult to find opponents. However, some "Customers" persisted, and allowed Schlechter to produce such pretty gamelets as the one below, in which he demolished an attempt to defeat him with the Queen's Pawn Center Gambit. Of course, a little cooperation on White's part was necessary!!

SOME AMUSING CHESS INCIDENTS

By Ernest J. Clarke, M.I.C.C.
Dean of Pacific Coast Chess

This episode happened here in California at Grancy's billiard parlor, Market St., San Francisco. I wrote it up for the Gambit, published by the Missouri Pacific of St. Louis; and it also appeared in the S. F. Chronicle chess column conducted by A. J. Pink, internationally famous Problem composer, and myself. But as it took place nearly 30 years ago, it will no doubt be new to most readers of C.C.N.

On a raised dais in an angle a chess table had been installed and by reason of daily attendance and perhaps because he probably owned the large chess pieces, the equipment was regarded as the special property of a long, black-bearded, eccentric, volatile, Civil War Veteran named J. Fennimore Welch. A fairly strong player, he usually defeated the brand of chess put up by billiard players, and, at a dime a game, he "earned" six bits to a dollar or so a day. He was a hard loser. Now and then some of the stronger players of the M.I.C.C. would visit Grancy's to watch and listen to Welch. He had a great "line". He claimed to have defeated all the famous masters. According to J. O. Chilton, Welch was a triptologist. One of his pet thrice-repeated phrases occurred when a weak opponent fell into one of his thinly-baited traps: "He rushed in where angels fear to tread-fear to tread-fear to tread!"

Once when Lawrence Rosenblatt of the M.I.C.C. had beaten Welch, the latter became so disagreeable (even through L.R. had waived collection of the dime!) that Lawrence conceived a scheme, the eventual denouement of which it was thought would considerably deflat the Welch ego. Rosenblatt had a printer strike off a script-letterhead, reading "The Balmoral Chess Club"; the date-line reading: Ukiah, Cal. (A purely fictitious organization.) A letter was written on this stationery, purporting to be from the President of the Balmoral Chess Club, a supposed recent visitor from Ukiah to Grancy's, who professed great admiration for Welch's chess play. The Balmoral Chess Club, the letter continued, would welcome a friendly match with the S.F. master, the latter to consult.

SOME AMISHING CHESS INCIDENTS (Cont.)

Welch, highly flattered, showed the letter to some of the H.I. players, as expected, and at Welch's request the letter was answered and the match arranged. Came the big night, and an installed telegraphic sender was merrily clicking off purported messages from the Balmoral C.C. at Ukliah. But when J. J. Dolan (of the famous Dolan End Game), a H.I. Trustee, arrived, along with a score of H.I.C.C. members, invited by Lawrence Rosenblatt to witness the match, J.J., a one-time W.U. telegrapher, was quick to recognize the "phony" clicking as non-professional. He waslet in on the true status and agreed to go along. The conspirators had "framed" a game - a Danish, giving White (Welch) a brilliant mate in 22 moves. A board of strategy sitting with Welch steered the game along the agreed lines by clever suggestion. An almost fatal disagreement, however, arose after the scheduled "book" moves: 1. P-K4, P-K4; 2. P-Q4, PxP; 3. P-QB3, BxP; 4. B-QB4, PxP; 5. BxNf3 B-N5ch; Here 6. K-B1! is very strong, and immediately "Balmoral's" move came "over the wire." Welch grabbed the King and moved it to B square. But the prearranged game called for interposing the N at B3 and the board replaced the K accordingly and interposed the Knight. "No! By God!" exclaimed Welch, his eyes fairly blazing with maniacal fury and it was said he made a move as if to draw a huge Army pistol which he was known to carry. But he was finally persuaded and the game came to its preordained brilliant climax without further incident. After a few days, J. Fenimore received a fine basket of fruit from the Balmoral C.C. (in reality the gift of Lawrence R.). This was followed by bottles of wine, cigars, etc., from the same donor. It became apparent that to justify the hoax, the truth should never be revealed to Welch; and I am sure he went to join the masters in the Elysian Fields never the wiser.

(a) Setting Black a difficult problem, for he must either give up the center with 6...NcP, or seriously weaken his pawn structure after 6...PcP; 7.B-N51, P-K3.

(b) He decides to hold the center, but must now submit to a fatal weakening of his black squares. After the more usual 6...NcP, white often obtains a great advantage in space and mobility with an eventual P-K4. For these reasons, I do not consider the Grunfeld a satisfactory defense. In my game with LeCormu in the 1948 National Junior Championship, he played 6...NcP, and the game continued: 7.E-K4, N-N3; 8.B-K3, Q-B2; (better was 6...B-K3; 9.Q-B2, B-B5) to exchange black's featureless QB for white's strong KB, and also to clear some of the wood off the board. Exchange usually favors the player who has the cramped game.) 9.R-Q1, Q-B2; 10.B-K2, Q-Q; 11.Q-Q, N-B3; 12.P-KR3, B-Q2; 13.P-QR4! (note the restricting effect of white's novel! Black's pieces have no play whatsoever, he is gradually suffocating to death.) 13...QR-Q1; 14.P-R5, N-B1; 15.Q-N4, P-KR3 (a confession of his inability to do anything constructive. He can only mark time waiting for the end.) 16.N-K5, B-K1; 17.N-Q3, N-Q2 (Black's position looks like a can of sardines.) 18.B-B4! (here comes the can opener!) 18...P-K4 (if 18...N-Q3, 19.P-K5, followed by 20.P-K6 winning a piece.)

19.PcP, NcP; 20.NcN, R-R; 21.RcR, BcN; 22.RcB, QcB; 23.QcP (white just took a big bite out of a sardine sandwich!) 23...N-K2; 24.R-Q3, P-KN4; 25.QxRP (another big bite!) 25...N-N3; 26.P-R5, P-KB4; 27. B-B4ch. Resigns. A very appetizing game! (c) White now has two distinct advantages: 1. His roving QB enjoys greater freedom than Black's QB, which is buried alive by its own pawns. 2. Black's K-side pawn structure is splattered with holes (Q3, K2, K4, to name a few) and he is dangerously weak on the black squares. This weakness will become more apparent if Black's KB is exchanged. (d) Unable to form a constructive plan, (white has no weaknesses.) black initiates a destructive one which only hastens the end. However, if black plays passively, white would continue to improve his position and eventually win either by taking advantage of the weak black squares on the Qside and the center, for example, by occupying the outpost at Q5 (N-QR4-B5) or by utilizing the black-squared weaknesses on the Kside perhaps with an eventual N-N41 (e) Taking advantage of black's sore thumb at KNA to effectively open the KR file for an assault against the black king. White reasons thus: Black will eventually have to play ...P-KB4 in order to protect his weak pawn on K5. This will seriously loosen his position on the Kside. Therefore, preparations for an all out attack on that sector are in order. (f) Now N-R6ch will force the exchange of Black's KB, after which the weakness on the black squares will be fatal. (see note c.) (g) More precise than the immediate 21. N-R6ch, because after 21...R-R3; 22.RcB, Q-R4ch; 23.K-B1, QxRP gives black counterplay. (h) I had considered the sacrifice 24.QxP, P-B4; 25.Q-B2, Pd1; 26.Q-R7ch, K-B2; but the continuation of the attack was too unclear, and with such a substantial advantage in position, there was no need to combine. (i) White's strategy has been justified; he commands almost every black square in the black position. The end is now brought about by tactical means. Watch the white queen chase the black king around the black squares! (j) If 29...P-Q3; 30.B-R5ch, K-R2 or R3; 31.B-B7 discovered checkmate. (k) Gaining time on the clock. (l) Threatening a murderous check at K5. (m) The future looks black for Black, so he throws in the towel.

MOVES TO PLAY

"The art of composing a Chess Problem can be taught to just about the same degree as any other art: That is to say, not very far."
- Brian Harley.

The truth of the above may be disastrously demonstrated by showing the following "first and only" (and probably last) MASTERPIECE composed by your problem editor in a weak moment:

(A) 8/LBB3Pp/7P/3FpKlp/6Pf/3Nk/3pLPRF/4HhQk/- 2 moves

"The proof is in the pudding" and, we must confess, the "proof" didn't come nearly so painlessly as we had been led to expect. Altogether about fifty positions were tried, and the same fifty were cruelly torn to pieces by our good friend Mr. Alan Kelly of Santa Rosa, who spared neither feelings nor minced words. We must admit that Mr. Kelly was right: The problem is unlikely to win an International Contest.

It finally happened. An unsolvable problem sneaked in. In #21 the Pawns on R7 and K2 should be WHITE, not Black. Believe us, this was an accident. "No solution" problems will never, never be included deliberately. No, too, detest them. Apologies to all, and ten points to claimers.

SOLUTIONS: A. P-QB4; RxF e.p. to four (4) Black replies.
B. P-KB8 (-N) four different White Knight promotions to four Black Knight moves.

#13. Q-KB1; #14. CxF(Q2); #15. R-C7; #16. Q-N3; #17. K-K7; #18. B-K8;
#19. Q-Q2; #20. P-B8(-N); #21. N-KN7; #22. B-Q1; #23. B-C7.

This month's problems:

29. 7k/8/B4p2/G/3pKdpl/QAPL/5P2/8/-2 moves	

Problem #29 is the last of the first quarterly contest. Winners and scores will be published in an early issue.

Please send in solutions - by October 30th, 1948 to P. O. Box 124, Santa Rosa, California. Greetings and best of luck from your Problem Editor:

FLASH NEWS!

(TACOMA CHESS CLUB by) The Tacoma (Ray Hisecox (Washington)) Chess Club elected officers at the regular meeting of the club. Vernon Holmes was re-elected President. Ray Hisecox was elected Secretary and Robert Avann, Treasurer. R. Collins is the new Club Tournament Director. Leslie Coubrough was chosen as Team Captain and director of Puget Sound League play. Carol Crain was elected Official Instructor. Carol Crain, in his capacity of instructor, will give a series of talks on "openings" starting with the meeting on October 1st.

The Tacoma Club won by default in the first round of Puget Sound League play. Having journeyed to Seattle for the scheduled match, they found no opponents. The Skagit Club team, whom they defeated 10-0 last year, failed to show up. The Puget Sound Chess League is now composed of ten teams, the Bellingham, Washington club being the latest entry.

(BAY AREA CHESS LEAGUE) At a meeting in (by Guthrie McClain) San Francisco, it was decided that the "A" division (6 clubs) will start Oct. 23rd. "B" division (11 clubs) on October 16th. Guthrie McClain was appointed Tournament Director. More details later.

The first named club is the host club.

(MODESTO CHESS CLUB) Our club hasn't been doing much during the summer although our attendance has been better than we expected. We have been meeting twice a month for social play in one of the city parks Sunday afternoon. We have two new members in the club. Under our by-laws, all members of the family of a club member enjoy membership privileges. So under that ruling Miss Nova McClusky became a member, when she became the bride of Leonard Krogness. Herb Betker did his part when he became the father of another baby girl July 21st. Friends of Lee Kerfoot, Modesto Club secretary, will be sorry to hear of the death of his wife in an automobile accident near Klamath Falls, Oregon. Lee, his wife, and daughter Genevieve, were on vacation when their car went out of control and struck a tree. Lee himself was not injured but his wife was killed and his daughter badly injured.

(BERKELEY CHESS CLUB) On September 2 we by Harry E. Corlett elected officers for the coming year as follows: Pres. J. J. Cahers; 1st V. Pres. Jerome Yaffe; 2nd V. Pres. Leonard Ralston; Sec.-Treas. Mrs. Clara C. Hurt. Chairman of Chess activities: H. L. Thackwell, 1035 Euclid Ave., Berkeley. Mr. Thackwell would like to hear from any neighboring clubs who would like to arrange a match. I am the retiring president.

(TRONA CHESS CLUB) Here is the report on (by G. M. DeYarmon) a chess match played at Trona, between the Trona C.C. and the NOTS C.C. China Lake. Trona won with a score of 6-4:

The Editor's Desk - GREETINGS!

One more issue and CALIFORNIA CHESS NEWS will be one year old! As you know, we intend to print our magazine and hope to do so with the first issue of the second year of publication. However, we can only do so, if and when you readers show your interest and support. We need subscribers! Now that the fall season is here, chess activities are starting and everything will be in full swing. CALIFORNIA CHESS NEWS can be of great service to chess clubs and chess players in reporting all chess activities and events, which take place. We ask that all clubs send in results, stories and games so that we can publish all these events as soon as they take place. There is no charge for this service and the publicity is mighty good for all clubs. So, how's about it???

Dr. Max Ruwe of Holland sent us a series of articles for publication. This, together with the series of articles by Yanofsky of Canada, and all the fine articles from West Coast contributors gives our magazine that international (swami) flavor, and makes it a definite "must" to most chess players. In a letter just received from Dr. Ruwe, we note that he beat Van Scholtinga 5 1/2-2 1/2 for the championship of Holland in the Fly-mouth Tournament (August 9-14) in England. Dr. Ruwe tied for first place with F. E. A. Kitto. Dr. Ruwe is coming to the United States on December 7, 1948 and will give exhibitions on the East coast before going to Curacao. He would be interested in giving some exhibitions on the West Coast. Clubs interested can write to CALIFORNIA CHESS NEWS for details and terms.

Have you entered a group in the Correspondence Tournament?? If not, do so now. Get acquainted with chess friends all over the State.

Order your books through CALIFORNIA CHESS NEWS and help the good cause of chess! Asta la vista!
