APRIL 1948

THE NAIL BAG!

Don't skip this Department- you may be in it!

Hore than forty (40) lotters came in commending our efforts, wesley Bird, President of the From Cless Olds says we are improving.... (but we intent to improve still more by having diagrams, and what we desire most of all is getting California CHBSS IEMS printed!)....Arboe Young of Roseville tells us to "Keep up the good work" We fully intend to as long as you help us with news, games and subscriptions. He tursly, by you, we mean all Chess Lowers on the redific Coast.

A subscriber (we won't mame) says he is chessically not physically "s cripple" and begs for some bun games, annoted with the whys and wherefores of the errors...wetch future 0. 0. N. and you will get your wish!

Thenks to Nick Russ of San Prencisco and Merion Sanders of Mentees for material sent... one is in "Odds and Ends"; the other will appear with notes for the weaker players. "Give us all the genes of the World's Championship fast" say sifew subscribers. We did this in this issue thus leaving out the great number of notes we had prepared on most of the games, so that we would have room to give that number of games. Bob U-ham of San Rafael writes a good hand of chess and on top of that sent in six (0) subscriptions, too...not only are we greteful to him, but we instead to promote him to Contributing Ratior... it tile that will be given quite a number of contributors from our next issue on. Hatch our Exitorial Board.

British Columbia is supporting Cell Chees News considerably.. thanks mostly to Deve Creener of Vancouver, president of the British Columbia Chees Ped. If the whole Pacific Coast shows its interest, we may yet start the ball rolling for a Pacific Coast Chees Conference or Union. How about having the first Pacific Coast Chees Championship to be held each year in one of the big four Pacific States?

In the meantime, though, we need subscribers and you can, help if you really think that Gel. Chees less is working in the right direction. Make the months of myral and May, CLIFOUNIA GESSI HELS months got subscribers. Howe, games and articles, for the May issue should be in by april 20th. To one and all.. Thanks!

Greetings!

WHAT, NO SPATS ???

The cold war is beginning to have its effect even in San Francisco. We couldn't believe our eyes when we discovered a chess article in the San Francisco Chronicle on Monday, March 22, 1946 on Page 3. Mind you...Fage 3! The title was --

Mechanics Institute Wents its Chess Players to Look Prettier

What's it all about? Mates? Oh, no - about clothes!

Some hundred and fifty chess players -- most of them elderly, but all of them militant -- are shattering the quiet of the 93-year-old Mechanics' Institute.

They are fighting the proposed closing of their famed club on the fourth floor of the institute building at 57 Post Street. The closing is being considered by the Institute's Board of Trustees for this amounced reason:

Some of the old fellows, quietly sitting at their tables in their "bedraggled" room - the phrase is the trustees look seedy. Their coming and going reflects on the Institute's dignity. This, the chess players declared, is sugust and stuffy reseming.

The doughty old players, many of them holding life memberships in the Meehanics' Institute, not in their clubroom to stalemate the board of trustees.

According to the Chronicle, Cherles Begby, immaculate in a blue pin-striped suit, represented the trustees. He was flenked by Elgin Stoddard and Constant J. Auger, also immaculate and also trustees.

Arguments flew back and forth, until the herassed trustees countered with a proposal to appoint a sereening committee and that the modernization of the playing room itself might spruce up some of the players, but the matter won't be decided until the board meets on Arril 6th.

We personally hope that the Mechanics' Institute Chess Club remains a famous landmark in San Francisco.

JUSTICE!

At Johnson City, Tennessee lest month in the U.S. erres tournament held there, a dispute error in which e player protested the loss of his game to his opponent because the clock used ticked too loud! Also, that he had to keep score since his opponent didn't know how to record the moves. The protest was cerried on the was given o win.

Ironically enough, he lost all three games in the finals!

Los Angeles Athletic Club by P. T. Hoffman
Whon a church puts on a campeign to expend or stimulate interest, it produces on evengelist, when a chess club has similar ideas it sends for Mr. George Koltanowski and holise a blindfold simultaneous axhibition. This was done by the chess section of the Los Angeles Athletic Club on Pricay, March 6. Playing eight boards, Mr. Koltanowski won from Messra, Devis, Turschek, Wellach, Mr. Koltanowski won from Messra, Devis, Turschek, Wellach, Lees Maches, Dales and Moffan, and Stat to Mr. 2. C. Chemona Jr.

simultaneous exhibition. This was done by the chess section of the Los Angeles Athletic Club on Friday, March 5. Playing sight boards, Mr. Koltenowski won from Messre, Davis, Turschet, Wollach, ames, Weber, Polos and Hoffman, and Lost to Mr. Rt C. Cheppen, Jr. it is interesting to note that et a similar exhibition last year, Mr. Chapman was sawarded a draw when the time limit was reached. Los Angeles always has a warn welcome for Mr. Koltenowski.

An interesting experiment is being conducted at Los Angelos Athlotic Club, under the direction of Dr. Alph H. Kunns, Director of Area #6, U. S. Chess Peteration. A free instruction closs in chess is offered to all jumiers on Saturday nornings at the club, while chess for children has been successful in schools and other natural gathering places for young folks, it will be significant to see what Dr. Kunns con do in attempting to bring them into a club in a metropolitan areashmentary have to travel long distances on their day off from school in order to attend classes. Dr. Kunns is entitled to three cheers for his efforts and he has our best wishes, He is being assisted by Mr. Ed Exton, one of the LAAA.O. regular players.

SAN RAPADL CHESS CUIB by Robert Unbon Due to the small size of our club, we meet in the homes of various self-secrificing members! Anyone desiring information about the club, write to the Secretary: Frank Southerland, Box #91, Corte inders, C. Alif.

On our perpetual tournment roting list, 850 Uphens and Fronk Suntherland continue to maintain top positions (they have been battling it out for top place cince last year!) But on their hools are Rill "it's a checknete" knowlon, 800 "Petience on a monument" Allison, and Low "glant-killer" frace. Two dark howe threats the class of the contract of the characteristic trapping at the Clying feet of the Lacoter above the are Jesse Roseini, Bill Feebre, "Dusty" Rhoddes, Mrs. Joine Gustefon, 800 Fellock and Bill Knar.

Every chess club in the world is probably blessed with its choractors. Here in ours, we have two, who are great chess foes from wattine days at the Marinship yards in Sausslito. They are, of course, Jesse Rossini (with his triumphal--and frequent--cries of "check" and "out of check"!; the other is self-effecing and overly modest kims. Freme Fore, the only player in the club which can be seen time she is twisting her hapless opponent into knots. She shies away from playing in toom matches with other clubs, claiming she isn't good enough; actually it is because she is too good for emphody the opposition can offer. When we play Santa Ross in May, we play to spring her against George Koltenowski on Board \$1.

You better be out-of-town come May, Mr. *E!!

Stockton, Celifornia by Marion Sanders

We are a little more than halfway through our round robin . tournament to decide who will represent our club in interclub matches. It looks like some will never finish all their games in the time allowed. We will have a perpetual cup or trophy inscribed with the winner's name and he will be permitted to keep it until we have another tournament.

It is almost possible to guess the name of the winner now.

and Jack Gonzales We have just completed play in the Alameda County Chess, League, which we won with a score of 10-0. Other highlights of our season were non-league matches with the San Quentin prison team, San Jose State College, Lincoln High School, San Jose and Sequoia High School, Redwood City; all of which we won. We would like to play any high school team that wishes to play us. To do so write; William Kilgore, c/o Hayward High School, Hayward, Calif.

Sacramento, Calif. by Neil T. Austin

At present, we are negotiating for matches with the Russian Club, San Jose, Solines, Modesto, and Fresno. Also, we are planning to combine with several other teams for a return match with Mechanics Institute C.C.

We had 21 entries in our City Championship. Present champion Milton Meyer was seeded into the finals and the remainder were split into 4 groups of five (5) for a double round qualifying tourney. The successful qualifiers were J. B. Gee, C.A. Iverson, S.W. Applegate, A. R. Chapman, F.B. Jackson, Dr. D.J. Yuk, N.T. -Austin and J.T. Marianos. Applegate and Austin were forced to withdraw shortly after the start of the final rounds, leaving a field of seven (7).

What do you think of a 20 board match between a Redwood Empire team and a Central California team? I do not know the relative strengths of the two sections, but imagine that they would be about equal.

Chess Chatter from San Jose by HarrySHaw

The San Jose team, with eleven players, visited the Russian

Chess Club in San Francisco and enjoyed the hospitality of the club's members. After some rather long drawn out games with both players playing cautiously and fighting for every possible point, the final score was Russian Chess club 12 and the San Jose club 8. This final score occurred because of time limits some of the boards were only able to finish one game. We hope that the Russian Club team will visit San Jose some time this summer and we will try to reciprocate for the enjoyable visit we had in San Francisco.

On February 24. George Koltanowski was a guest of the San Jose Club and played simultaneous chess against 31 players. The exhibition was very successful in bringing out several new chess players and numerous interested spectators, some of whom came out of curiosity, but stayed to the finish for the enjoyment of the contests. George has appeared in numerous exhibitions in San Jose and to the knowledge of the writer, he has never lost a game in any exhibition where he has played the white pieces exclusively. On this occasion, he lost one game to Gordon F. Mills See Games Section) a member of the Palo Alto Chess Club. It is always an item of interest when a local player can emerge the winner in a game against a master. We have asked Mr. Mills for the score of his game with his own personal annotation and they are hereby offered to Cal. Chess News readers. These are the thoughts of Mr. Mills and it is possible that one could dispute some of his analysis and show where he was very luckyto win, but if you will run the game over on your chess board, I think you will agree that he played an aggressive game and kept out of the troubles that usually befall the average player when playing the black pieces against a chess player of Kolty's celibre.

Berkeley Chess Club by Jorome Yaffe
Our club boasts of over 100 members, and we meet at the Live Oak Park, Shattuck and Berryman, Berkeley. It is our aim and ambition to stir up chess activity in this area so that we may. in time, develop California into a chess center equal to that of New York. (Editor's note: That is our aim, too. Keep on boosting C.C.N.)

Our tournament chairman would appreciate hearing from other nearby clubs in the bay area, if possible, in order that we may indulge in some enjoyable chess rivalry. His name is: John E. Warner, 1927 Cedar Street, Berkeley.

Pomona Chess Club

This club has 35 members and meets Mondays and Thursdays at the Y.M.C.A. Visitors welcome.

Sebastopol Chess Club

This club, newly formed, meets every Thursday night at the home of Mrs. Agmes Blewitt, 440 High Street. Everyone is welcome. Possibly a competitor for next season's Redwood Empire Chess League Championshin!

Modesto Chess Club by Herb Betker

Modesto has been quite active since the last news item we bent in. We had a simultaneous with Scorge Molitonowich julging blindfolded on eight boards against 25 players. The boys were well satisfied with their play and named at the play of the mester. Although Goorge is no strenger to the Hodesto Club, his ability at blindfold play still mystifies us all.

The annual election of officers was held Sunday, March 7. The following are the officers for the coming year:

President Herb Betker
Vice-President Herb. Peul
Znd Vice-Pres end
Tournament Director
Soc-Treasurer
Special Event Chairman
Rev. D. C. Weston

We have just concluded our annual club championship. It was hotly contested. Under the Swiss System of pairings, there were several upsets and several more exciting near upsets. H. Faul won with a score of Sp out of a possible 6 boints.

Modesto's bearded wonders (you should see us. A whiskerene is on in this section of the state in home of the gold discovery contennial and the beards are really something to behold.) went to San Francisco to play a team match with the Russim Cress Club. The less said, the better, sbout the score. We expected to tught match, but we really expected to win. Instead we did not win as match, but we really expected to win. Instead we did not win as we have challenged them to a return match on our home grounds and I still think that we can win from them.

Modesto club is tentatively scheduled to play host to the Sormanonto and Pressno clubs Sunday, April 18, and we are now trying to line up another team so that we can make it a four way match.

The Club is still growing at every meeting. For the last two months, we have taken in one or more new members.

From Mr. H. P. Jaroske, Petaluma

For good fellowship among the chess fraternity, may I suggest that the Redwood Empire Chess League clubs hold a monthly get-together dinner meeting with their wives. The ladies could play cards after the dinner, while the chess players went in for ten second or other chess innovations. You probably would be happy to act as master of ceremonies and suggest new methods of competitive play.

Also, how about each club having its own annual dinner? The resultant publicity would make people chess conscious.

Of course, an annual dinner of the combined Redwood Empire Chess League clubs is a must.

Kares vs. Smyslov was a game full of fire, typical of the two youngest contestants. After some lovely pawn sacrifices, Keres geined a material advantage to win.

SPECIAL SUPPLEMENT

(4) March 8, 1948.

Round Three started with the public Setting heavily on botvinnik and Keres, but anything can happen in this tournament, and it did! After playing a fine positional game and forcing the pace all the may Reshevely broke through Agree' defenses in bad time pressure for both to force a sating position.

Smyslov fought Botvinnik tooth and neil all the way and won a pewn by adjournment time. However, it is doubtful if he cen win, as Botvinnik cen probably force the draw by repetition of moves.

Buwe also had an overwhelming game against Symslow, and also got the sacrificial craze to speculatively donate two knights for a seemingly making attack, only to find that the bird had flown the coop. The adjourned position holds little hope for the former world a champion, who is wo pieces down.

Here are the standings efter the first five rounds: BOTULHIK-5; REMERYSIN-59; EXHES on SINGAIOV-2; CHEW O. Although it is much too early to drinitely give an opinion on the outcome, one thing is sure that all of us ere hoping that Samy Reshevsky does the impossible. The Russians were accompenied by a delegation of 21 players including one first rote mester Regotin. This together with the three players, makes it a difficult combination to overcome. Still, mireoles can happen!

ODDS AND ENDS!!

THERE AIN'T NO SUCH ANIMAL!

During my recent tour, I played in wheeling, west Virginia and while glanding through the "shome book, I noticed a name "Edgington Line Chess Club, Inc." This was news to me, so I phoned and asked for the secretary and to my astonishment was advised that they had NO chess players. This intrigued me! That evening I learned that in West Virginia in order to get a liquor license, it has to be a club that is incorporated. The chess in the title was purely coincidental. Chess does get around!

BRUTALITY IN CHESS (New York "Sun" Editorial)

There are certain considerations which make it doubtful that chess will ever become a mob sport. It is not that the game is not brutal, but that it is too brutal.

The Times suggests that the habit of resigning may save the game from excessive ferocity. But that is not the first or greatest preventive. What does save it is that although mobs may condone and even enjoy the spectacle of a wrestler biting his opponent's ear, they are rarely able to appreciate slow and lingoring mental cruelty. An excited mob likes to see its victims put to supreme tests - to see a bull stabbed in the back of its neck or a pugilist writhing under a knockout blow- but even the ficroest mob is too humane to sit gleeful for hours watching a chess master as he slowly succumbs to the pressure on his queenside pawns by an opponent's pieces.

Chess is erroneously described as a gentle pastime. In reality it combines the Spanish Inquisition with a Puritan witchbeiting, preserving the most exquisite tortures of each. It can never appeal to mobs until mobs learn that pulling out an enemy's toensil with red-hot pincers is childlike in comperison with winning a pawn from him on the tenth move and forcing him. for want of that pawn, to resign on the eighty-seventh.

Conversation Piece in the Course of a Game
Sir George Thomas to Koltanowski: "I see you are the exchange down. Did you lose it, or sacrifice it?" Koltanowski to Sir Goorge Thomas: "How am I to know? I'll tell you when the game is over. If I win, it was a sacrifice. If I lose. then it was a mistake."

ARTHUR DAKE seemed to be deeply absorbed in a game being played in the U.S. Women's Championship tournament of 1938. Mrs. Marshall, eager for an opinion as to the probable outcome, ventured to ask, "What as you think, Arthur?" Dake took another look at the board, and at the contestants, and answered, "They're both very thin, aren't they?"
