STATISTICAL REPORT by E. C. Jonas

The 1966 Northern California vs. Southern California team match was the 33rd in a series started in 1926. This year's match was 40 boards. Of the total of 40 games played, 16 were won by White, 13 by Black, and 11 were drawn.

The South has won 8 times, the North now 22 times, and there have been 3 ties. A total of 1349 games have been played during this period (not counting a 20-board match between the "second" teams in 1947, won by the North 10½-9½). Total score: North 740 - 609.

Over the years the North has used a total of 317 players, while the South has used 454. There have been 39 players who have played at various times for both North and South. Previous results:

ANNUAL MEETING OF THE CALIFORNIA STATE CHESS FEDERATION

The annual meeting of the CSCF was held on Sunday afternoon following the North-South match. The attendance was somewhat sparse because two games were still being played and also because some of the players had gone home.

The annual meeting of the CSCF was called to order by President Isaac Kashdan at 5:20 P.M., May 29, 1966 at the Towne & Country Lodge, Fresno.

- I. The minutes of the previous meeting were read and approved.
- II. The Treasurer's report was read by Dr. Ralph Hultgren and approved.

III. Report of the Tournament Committee: President Kashdan, chairman of the Tournament Committee, called upon Gordon Barrett of the Southern California part of the Committee, for a report on CSCF tournaments. Mr. Barrett reported on the California Open and the 30-30 tournament held in connection with the North-South team match. The California Open was held at the Hacienda Motel at Fresno in 1965 and will again be held at the Hacienda in 1966. The 30-30 did not draw the expected attendance and evidently did not increase the attendance at the North-South match. Mr. Barrett discussed various suggestions: (1) Prizes should be higher in the California Open and the CSCF should guarantee them; (2) Should the North-South match be a double-round match with colors reversed; (3) Should the match be held elsewhere than Fresno, such as San Luis Obispo (providing suitable accommodations could be obtained - Mr. Barrett and Mr. McClair offered to look into this matter) or on a rotation between northern and southern California (Santa Barbara and Monterey, for example); (4) Should the California Open be moved in a similar manner; and (5) Means for starting the North-South match earlier.

It was moved and seconded that the California Chess Reporter run an opinion poll on these matters. Motion passed.

It was moved and seconded that registration for the North-South match close at 9:00 A.M. on the morning of the match for all players who have not already registered by mail or by telephone. Motion passed

IV. New Business:

1. Duncan Suttles suggested that the Rapid-Transit State Championship be conducted as a four-game match.
2. Benton James offered the Atlas Club for CSCF events.
3. Benton James suggested that class tournaments, which have already been started in southern California, be held State-wide. The results would be State champions in Class A, Class B, Class C, etc. This would require northern California to cooperate in establishing winners to play southern California winners for the State championships; Mr. James reported that there would be \$1,000 in prizes for the southern California class championships.
4. Mr. Barrett requested permission to purchase chess clocks for the CSCF, to be used mainly in the California Open. No decision was made, but the consensus was negative.

V. Old Business. None.

VI. Election of Directors:

1. At Large, Southern California; Irving Rivise

2. At Large, Northern California: Ron Pease
 3. Los Angeles: H. D. Rader
 4. Los Angeles: Gordon Barrett
 5. San Diego Area: No representatives to vote. President to appoint, probably either Rod Freeman or John Alexander.
 6. Northern California: No representatives to vote. President to appoint.
 7. Redwood Empire Area: Mike Goodall
 8. Central California: John Blackstone
 9. Riverside-San Bernardino Area: No representatives to vote. President to appoint.
 10. San Francisco Bay Area: Guthrie McClain
- There being no further business, the meeting was adjourned.

John Blackstone, acting Secretary.

IRVING RIVISE CALIFORNIA SPEED CHAMPION

Irving Rivise of Los Angeles topped a field of nine finalists to win the State Speed Championship, held at Fresno on Saturday, May 28. Rivise won the first prize of \$25. John Blackstone and Duncan Suttles tied for second and divided \$15 and \$10 prizes.

There were three preliminaries of nine players each:

1. Duncan Suttles, Arthur Spiller and Harry Borochow.
2. Irving Rivise, Karl Stani, Gordon Barrett.
3. David Blohm, John Blackstone, Martin Rubin.

SUTTLES REPEATS AS CALIFORNIA 30-30 CHAMPION by Gordon S. Barrett

He did it last year, and this time defended his title in great style. Duncan Suttles allowed only one draw to Irving Rivise, who finished second, and took top honors with $5\frac{1}{2}-\frac{1}{2}$. He will hold the State 30-30 title for a long time to come, as this event won't be repeated for a few years anyway - until we have another 3-day Memorial Day weekend.

Rivise was a clear second, 5-1, drawing with David Blohm as well as Suttles. Blohm lost to Suttles and tied for third with Dr. Frank Ruys at the $4\frac{1}{2}-1\frac{1}{2}$ mark. Other prizewinners were: Dr. Ruys, Expert Prize, Karl Stani and Ron Pease, tie for Class A, Manuel Tupas, Class B, and R. Hall and S. Blackmon, tie for Class C. A good tournament, with 27 entries - slightly less than last year.

REBELS TROUNCE YANKEES IN ANNUAL SOUTHERN CALIFORNIA TEAM MATCH

The annual warm-up team match for the Southern California team was held on May 22 as part of the traditional Morphy Day chess festival. The Rebels won very convincingly, and had all the players come to Fresno the next Sunday the North would doubtless have been in trouble.

Morphy Day, of course, had other events than the team match. The speed championship was won by Leslie Simon (after two sections had been won by Allan Troy and Tibor Weinberger). Lectures and simultaneous exhibitions were part of the program, and the trophies to the winning teams in the league matches were presented.

Morphy Day was held at the League's new headquarters, the Atlas Club (Benton James, director).

SAN FRANCISCO VS. EAST BAY

On the previous Saturday night a small team match was held at the Mechanics' Institute in San Francisco. This event is northern California's warm-up for the North-South match, and used to be a large affair. In fact, there used to be a preliminary match Oakland vs. Berkely, after which these two sides joined forces with Central California League players to take on the San Francisco team. Whatever the reason, there was a disappointing turnout this year. We have mislaid the score sheet, but we feel that nobody will miss it. The North won the big match, anyhow!

SOUTHERN CALIFORNIA LEAGUE TEAM TOURNAMENT

The UCLA team won Division A honors, as reported in our last issue. There are still enough unfinished games to affect the standings of at least three teams, so this division will be reported next time. Details of Division B follow:

JIM TARJAN CALIFORNIA JUNIOR CHAMPION

Jim Tarjan of Sherman Oaks tied for first place with three other players and won the California Junior title in June. Jim, who is only 14, made a 5-1 score and 21 tie-breaking points. Tied with Tarjan with 5-1 scores were: G. Gean (20 tie-breaking points), T. Beckman (19) and B. Stewart (18½). Tarjan defeated defending champion David Blohm of San Francisco in the last round. The tournament was held at the Herman Steiner Chess Club and was directed by Grandmaster Isaac Kashdan.

CARL PILNICK HERMAN STEINER CHESS CLUB CHAMPION

Carl Pilnick won the annual club championship at the Steiner Club with a score of 7-1. Walt Cunningham and Lars Enequist tied for second, 5½-2½. Saul Yarmak was fourth, 5-3. We regret that a cross-table of the tournament is not available.

GAME OF THE MONTH By Alan Benson

The writer wishes he could have the whole of The Reporter for the notes to the following games between two young stars of the chess world. Boris Spassky of Russia, recent challenger for the World's Championship will be seen in California in the Piatigorsky Cup tournament, July-August. Fridrik Olafsson of Iceland, a contestant in the first Piatigorsky Cup tournament, has taken up the practice of law.

Moscow, 1959

Game No. 935 - Ruy Lopez

White	Black
B. Spassky	F. Olafsson

1. P-K4	P-K4
2. Kt-KB3	Kt-QB3
3. B-Kt5	P-QR3
4. B-R4	Kt-B3
5. O-O	B-K2
6. R-K1	P-QKt4
7. B-Kt3	P-Q3

It is obvious that Olafsson would not dare to play the Marshall attack against Spassky!

8. P-B3	O-O
9. P-KR3	Kt-QR4
10. B-B2	P-B4
11. P-Q4	B-Kt2

This move dates back to Riga 1958.

12. P-Q5

I believe this is the only grand-master game in which 12. P-Q5 was tried. The usual continuation is 12. QKt-Q2, BPxP; 13. Pxp and B has two tries: 13...R-B1 and 13...Kt-B3. On 13...R-B1 there follows 14. P-Q5, Q-B2; 15. B-Q3 (it is interesting to note that in the preliminary final of the Russian Championship 1960 Spassky played 15. B-Kt1 against Mnatsakanian; there followed 15. B-Kt1, Kt-Q2; 16. Kt-B1, P-B4 (Kt-B5! Tal-Petrosian 1959) 17. Pxp, Kt-KB3; 18. Kt-Kt5, Bxp; 19. Kt-K3, Q-B3; 20. KtxP!, KxKt; 21. KtxB, QxKt; 22. QxQ, KtxQ; 23. P-B6ch,

P-Kt3; 24. PxB, KtxP; 25. B-Kt5 and it took Spassky little time to prove the power of the two pieces with the little round balls on top 15...Kt-Q2; 16. Kt-B1, P-B4; 12. Pxp!, Bxp; 18. Kt-Kt5! and White got the advantage. Liberson-Suetin half final 1960. On 13...Kt-B3 a suggestion of the Russian master Borisenko, there follows 14. P-Q5, Kt-QKt5; 15. B-Kt1, P-QR4; 16. Kt-B1 Kt-R3; 17. Kt-Kt3, B-B1; 18. B-Q3, B-Q2; 19. B-K3, Q-Kt1; 20. R-B1 with approximately equal chances. Fischer-Unzicker, Leipzig '60.

12. ... B-B1

The bishop, of course, has no prospects on its present square and is regrouped immediately.

13. QKt-Q2 P-B5

14. Kt-B1 Kt-Kt2

15. P-KKt4 P-KR4

If this game had been played in 1890 Black would undoubtedly have played 15...Kt-K1 followed by P-Kt3, Kt-Kt2, Q-B2, Kt-Q1, P-B3 and Kt-B2 and said "come and get me." Olafsson is playing an active defense, which requires great care.

16. Pxp Bxp

17. KKt-R2

Avoids the pinning of the Kt and protects the rook's pawn.

17. ... Kt-R2

Preparing to secure the B squares.

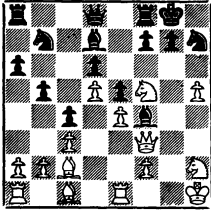

18. Kt-K3 B-Kt4

19. Q-B3 B-Q2
20. K-R1

In order to attack on the Kt-file.
20. ... B-B5

Spassky later said that 20...Q-B3
would have been correct.

21. Kt-B5

There are many interesting con-
tinuations now which lead to ad-
vantage for W: 1. 21... QBxKt; 22.
BxB!, BxP??; 23. QxB, Kt-B3; 24.
B-Kt5 and W wins a piece.

2. 21...KBxKt; 22. KxKt, BxKt; 23.
QxB (PxB?, Q-R5ch; 24. K-Kt2, Kt-
Kt4 and B stands better) Q-R5ch;
24. K-Kt2, Kt-B3; 25. R-R1, Q-Kt5
ch; 26. QxQ, KtxQ; 27. K-B3!, Kt-
B3; 28. B-Kt5, Kt-R2; 29. B-K3,
P-Kt3; 30. QR-KKt1, K-R1; 31.
K-K2 followed by 32. P-B4 with
advantage for White.

3. 21...QBxKt; 22. BxB, PxB; 23.
PxB, Q-R5; 24. R-KKt1! (R-K4, Kt-

choice; he must rely on this) 25.

gets mated or loses more material.
The other lines from move 30 are
just as bad for black this one
was just an example the reader
must work out the lines for him-
self as there just isn't enough
space for them here); 27. Q-R3!,
K-R1; 28. Q-R4, Q-B3; 29. R-Kt5,
QR-K1; 30. Kt-Kt4, P-K8; 31. K-

P (threat of R-Kt7!) R-K7; 34.
QxP and black must lose as there
is no defense against 35. R-Kt8.

21. ... BxB
22. QRxB BxKt
23. PxB Q-B3
24. R-KKt1 Kt-B4

If 24...Q-R3 then 25. Kt-Kt4, QxP
26. K-Kt2, P-B3; 27. R-KR1, Q-K1;
28. RxB, KxR; 29. Q-Kt3, RxB2
(K-Kt1; 30. Kt-R6, K-R1; 31. R-R1);
30. R-R1, Kt-Kt1; 31. Kt-R6, K-
B1; 32. KtxR, KxKt (32. QxKt; 33.
R-R8); 33. Q-Kt6, K-K2; 34. QxKt
P, Q-B2; 35. R-R7, R-KB1; 36. Q-
Kt6 and wins, or 29...P-Kt4; 30.
PxB, K-Kt2; 31. Q-R4 or if black
were to try 24...Q-R3; 25. Kt-Kt4
Q-Kt4 then 26. Q-R3, Kt-B3; 27.
KtxKt, QxKt; 28. P-R6 and wins.

25. R-Kt2 Q-R3
26. QR-KKt1 Kt-B3

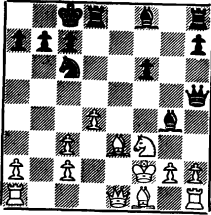

With this move Olafsson hopes to
keep the QKt1, KR7 diagonal closed.
Spassky's next move destroys this
idea.

27. Kt-Kt4! KtxKt

This was forced: 27...QxP; 28. R-
R2, Q-Kt4; 29. Q-R3 and mates or
27...Q-Kt4; 28. KtxKt, QxKt; 29.
RxB, QxR; 30. RxB, KxR; 31. P-B6
K-R3 (K-R1, Q-K3); 32. Q-K3, KxP;
33. P-B4 (threat of mate) PxB;
34. Q-R3, K-Kt4; 35. Q-B5, K-R5

6. KtPxKt Q-R5ch
 7. K-K2 Kt-B3
 8. Kt-B3 B-KKt5
 9. Q-K1
 Hoping to get an ending with the Bishop pair. He was rightly afraid of 9. P-Q4, 0-0-0; 10. Q-K1, RxP; 11. PxR, KtxPch; 12. K-Q1, Q-R4 etc.

9. ... Q-R4
 10. P-Q4 0-0-0
 11. B-K3 P-B3
 12. PxP PxP
 13. K-B2?

This natural move should lose by force. K-Q2 might have been better.

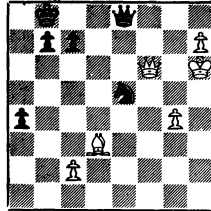

13. ... R-K1?
 14. B-K2 B-Q3
 15. Q-Q2 R-K5
 16. P-KR3 B-Q2
 17. P-KKt4 Q-K1
 18. B-Q3 R-K2

 21. B-R6 Kt-R4
 22. Kt-B5 BxKt
 23. BxBch K-Kt1
 24. R-K1 QxRP

 26. R-K1 Q-B2
 27. RxR BxR
 28. Q-Q3 B-B1

31. K-Kt2 Kt-B3

 33. P-R5 Q-B5
 34. Q-B3 Q-Q7ch
 35. K-R3 P-R5
 36. QxP QxPch
 37. B-Q3 Q-K8?
 Now P-R6 had to be played. If 38. P-R6, etc. White would Queen with a check but with 2 Queens on the board there would be a quick draw or else.

38. P-R6 Q-K6ch
 39. K-R4 KtxP
 40. P-R7 Kt-B6ch
 41. K-R5? Q-K1ch

After the time control is passed White overlooks 41. QxKt, probably hoping for an easier win.

42. K-R6?
 And here 42. B-Kt6 should do it.
