

Check Your Position On the Chess Ladder

WINNERS in the 107th month of The Chronicle's chess ladder solving competition are Charles C. Cashion, San Francisco and Marcus R. Ogden, San Francisco. Congratulations! Prizes will be forwarded this week.

Winners now lose their accumulated points and start again at the bottom of the ladder. All solutions must be addressed to George Koltanowski, The Chronicle, San Francisco, and postmarked before midnight of Tuesday following publication of the problem. **CARDS MUST BEAR THE NAME AND ADDRESS OF THE SENDER.** If answers to questions are desired, enclose a self-addressed post card.

New solvers are always welcome and can enter the ladder-solving competition at any time.

One point will be given to all contestants who send in a solution—right or wrong; two points for each correct solution to a two-mover; one additional point for "cooks" (more than one correct key move); two points for a no-solution claim if justified (we do not print "no-solution" problems intentionally—but when such a problem does turn up, your claim of a "no solution" gets you two points); four points for each correct solution to a three-mover. Only key moves should be sent for two movers and main line of play for three movers. Previous prize winners are indicated by asterisk (*).

Here is a full list of the problem solvers up to and including Problem No. 465.
