

## The Game in California.

A so-called ladder tournament was recently concluded at the Los Angeles Chess and Checkers Club, in which E. O. Fawcett won the first prize, D. W. Anderson the second and G. C. Rose the third. The players were first drawn by lot as to rank, after which any player could challenge the one immediately above to a match, taking the latter's place in case of success.

The following are the details of a team match between Pasadena and Los Angeles on last Memorial Day:
