

CONGRATULATIONS TO HERMAN STEINER!

Word reaches us from Los Angeles that Herman Steiner recently became the doting father of another baby boy. We say doting advisedly, as our staff statistician informs us that at the 1936 Championship, Steiner showed the picture of his other youngster (now about four years old) to no less than 32,457 people! With their mother's charm and their father's chess ability, the junior Steiners should soon be following in the footsteps of Morphy.
