★ ★ ★

Without a doubt the most complete defeat of USCF expert **Gene Lee's** opening specialty for Black, the Dragon variation of the Sicilian Defense, was administered in round two by the tournament winner.

White: Jim Tarjan (2478).

Black: Gene Lee (2077).

Cal-Open (North), Berkeley, Aug. 31, 1974.

Sicilian Defense

1 P-K4	P-QB4	19 R-K1	K-R1(h)
2 N-KB3	P-Q3	20 N-B3!	QR-K1
3 P-Q4	PxP	21 B-N6	Q-N1(i)
4 NxP	N-KB3	22 N-N5	P-R3(j)
5 N-QB3	P-KN3	23 N-K6	BxN
6 P-B4	QN-Q2(a)	24 RxB	K-R2
7 B-K2	B-N2	25 P-N4	N-K5
8 0-0	0-0	26 PxP	PxP
9 B-K3	P-QR3	27 Q-R5(k)	Q-B1
10 P-QR4!(b)	Q-B2	28 K-R2	R-B3
11 N-Q5(c)	NxN	29 B-Q4!	RxR
12 PxN	N-N3(d)	30 QxBPch	K-N1
13 P-B4!(e)	N-Q2	31 PxR	N-B3(l)
14 P-R3	N-B4	32 R-KN1	Q-B3
15 P-QN4	N-K5	33 Q-R7ch!(m)	NxQ

(Notes contributed especially for this column by international master **Jim Tarjan**.)

(a) The old line, 6...N-B3, is supposed to give White a good game after 7 NxN PxN 8 P-K5.

(b) Better than committing the bishop to KB3, as has been played in the past, which weakens the QB4 square.

(c) Here I was considering 11 P-KN4, with the possible continuation 11...P-K4 12 N-N3 PxP 13 BxBP N-K4 14 P-N5 N-K1 15 N-Q5 Q-Q1, with a complicated position. The text move is simpler and leads to an advantage in space.

(d) Black should probably play 12...N-B3 13 P-B4 P-K3 and try to break up the center. Black overlooked White's next move.

(e) This establishes the strong pawn center. If now 13...NxBP, then 14 Q-B2 NxB (forced) 15 QxQ BxN 16 K-R1 NxR 17 RxN, and although Black has rook, bishop and pawn for the queen, his lack of development makes his position unpalatable.

(f) A bad positional weakening. In my opinion, he should try 16...N-B3, even though Black remains cramped.

(g) Fixes the pawns and eliminates the possibility of ...P-QR4 for Black.

(h) Presumably, to remove the king from the queen's diagonal after 20 P-B5 NxP 21 Q-N3, but White is in no hurry to open the game, since Black has no counterplay whatsoever.

(i) If 21...Q-B1 I intended 22 B-N1, with the idea of meeting 22...P-K3 with 23 PxP followed by a subsequent QxP.

(j) This move is a mistake, of course, as it fatally weakens his king side, but Black's game is horrible anyway.

(k) White could have won a pawn before or after the trade of NP's by Q-K2 and taking on K4, but a direct attack on the king is the quickest way to win.

(l) Not 31...BxB because of 32 BxN, and White would mate sooner than in the game.

(m) Virtually anything wins now, but I decided to seize the opportunity to sacrifice my queen for the gallery.

(n) On 34...K-B1 White still mates in two with 35 R-B7ch K-N1 36 BxNmate.
