## CHESS

By E. J. Clarke

indeed of the Pacific Coast generally, will be interested in the announcement by Bernardo Smith, acting secretary of the Mechanics' Institute Chess Club and an officer of the California State Chess Association, that there is a strong likelihood of holding the 1923 meeting of the Western Chess Association jointly with the California State che pionship tournament in San Smith has exchanged Francisco. several letters on the subject with Norman T. Whitaker of Washington, D. C., who is on the committee of the Western Association, to arrange for the 1923 tournament. Local experts realize that the holding of the Western Chess Association tournament championship would do much to promote the welfare of chess and are greatly in favor of the plan. Last year's tourney was held in Louisville, Ky., where the excessive heat greatly interfered with the play. In that respect San Francisco is an ideal city for the holding of a chess tournament, However, until airplane travel becomes common, the city by the Golden Gate probably seems a long distance away from the res-

Chess players of California, and idence of the Easterners who completed of the Pacific Coast generally, will be interested in the ansurance of the Easterners who comprise the membership of the Western Chess Association! A definite statement regarding the tourney will be made next week.

Chronicle correspondence tournament—S. E. Silvius has won the second game from A. R. Craven (group A).

\* \* \* \*

An interesting rapid transit tour-

nament was held at the Mechanics' Institute Saturday night, with the following taking part: Messrs. Fawcett. Van Hoven, Gruer, Rabinovitch, Silvius, Fink, Bernstein, Langrock, Sweet and Bernado Smith. Moves were made every ten seconds. Winners were: E. W. Gruer, first, 8½ to ½; A. J. Fink, second, 6½ to 2½; Bernardo Smith, third, 6 to 3.

I Possesson of D

Carl J. Bergman of Big Pine, Cal., and W. O. Manney of El Paso, Tex., are playing two games of Neochess by correspondence.

\* \* \* \* \* GAME NO. 169

Here is a lively game from the pending third Neo-chess tournament at the Mechanics' Institute. Black's fourth move was a fatal loss of time. Development of pieces is vital at Neo-chess and the Black Chancellor may as well not have been on the board. On the other hand, White's Neo pieces are well deployed.
