Chess

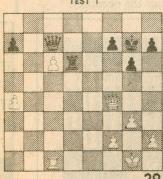

By George Koltanowski

IMPROVE YOUR CHESS

The next 11 positions are presented a test to evaluate your ability in agination, reasoning, knowledge and as imagination technique. Stick to the conditions set forth under each position, keep score of your time used to write down each answer. When the solution is published, you will also find the number of points you earned for each answer. (Who knows, you might be of master strength and don't know it!)

TEST 1, 2, 3, 4: These are given to test your ability to see the coordination of your pieces, the weakness in your opponent's or your position, and the quickest way of benefitting from the situation, in each it will be White to move, and you MAKE JUST ONE MOVE that will decide the issue. You MUSf write down the answer, and add on the time used to find the answer. (Say 10 seconds, etc.)

TEST 1

ONE MOVE FOR WHITE

Time in seconds.

(To our students: Please no correspondence on these tests. Even if you do not agree with the explanation given, there is no doubt in my mind that you will learn more about the game if you study this series. Answers tomorrow.
