Dear Mr. Shorman,

I wish to take this opportunity on behalf of the embryonic City College Chess Club to thank you for your help and impetus. You gave a very stimulating, lucid lecture. It gave most of those present a first glimpse into the real world of chess.

I commend you especially on your simultaneous exhibition. The incompetence of your opponents was exceeded only by your great patience.

The petition is on file with the Student Council, and I see no reason why we shouldn't have a sanctioned club by the end of the week. Hopefully it will be a good one. I'll keep you posted.

Respectfully,

*Rafael Segura*
