Subject: Appreciation for  
Services Rendered inmates  
at San Quentin Prison

Chris. A. Miller, Activities Coord.

From: California State Prison, San Quentin 94964

This letter is to express my appreciation for taking the time and at personal expense to yourself to come to San Quentin State Prison to introduce the game of Quadra Chess which was an idea of yours and proved to be, a very entertaining new type of chess game.

As Activities Coordinator of all inmate groups and re-entry programs at San Quentin it was my pleasure to have you introduce the Quadra Chess Game to our inmates of the San Quentin Chess Club and the feedback I received from the Club Members was that it was a new and exciting game that gave them many more hours of enjoyment than the conventional games of chess. As a result of your demonstration I personally purchased two games and am glad to say it is a new and satisfactory means of entertainment.

Thank you again for introducing Quadra Chess to our institution and for your time and efforts in demonstrating the game to myself and the S.Q. Chess Club inmates.

Sincerely,

*Chris A. Miller*

Honey:

You just wouldn't believe the popularity the QuadraChess set you gave me is having. I've been going to the day room twice everyday with it, as well as it gets unstopable use here in our 66 man dorm. All night long guys are plying. You really have a winner Young Lady. I would like to say I immensely enjoyed your visit and wish to thank you in more ways than one. I hope
