Dear Mrs. Mc Bain;

The Chess News announces your contemplated tour and I have been asked to write to you to find out if it is possible for you to include San Jose among the cities that you will give exhibitions on the west coast.

San Jose is 50 miles south of San Francisco and we have a small club which meets at the local Y.M.C.A.

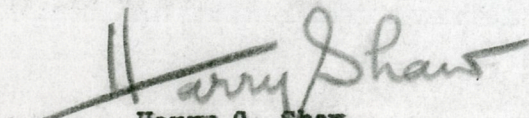

If you have any pamphlets or a prospectus that we might use for publicity purposes, I would appreciate receiving them.

Do you have any objections to appearing for exhibitions on Saturday or Sunday Afternoons. Some time ago, we held a Saturday afternoon exhibition and it was very well attended by both players and spectators. This caused us to think that Saturday afternoon exhibitions might be more favorably received than evening exhibitions.

Do you limit the number of players opposing you for your exhibitions. All of our previous simultaneous exhibitions have been limited to 30 players and we think that this is just about a right number and one that should not cause the exhibition to be too long to complete.

May we have the pleasure of hearing from you.

Sincerely yours,

Harry G. Shaw
