Games of Karpov (O'Connell & Adams)	12.95 6.75

Dear bulletin customer,

I realize that I am in danger of losing many of you due to poor service. Many of the items I offer are also available from others with better service records.

The reason for the poor service: Hospitalization twice in one year created a backlog and large bills. Taking a job to pay the bills increased the backlog.

What, you may ask, is to prevent a recurrence?

- (1) Both hospitalizations were whims of fate; my health is excellent.
- (2) I have received a small inheritance, freeing me from outside work and allowing me to concentrate on the chess information service. It also has allowed me to hire help when the occasion demands it, as at present. A third side benefit is that I can now make the following conciliatory offer:

A 40% discount on bulletins not marked "u" (I'm still reprinting)  
good until 10-1-79.

A 10% discount on all books (I obtain those marked with a \* in Europe  
so please allow for the possibility of slow delivery)  
good until 9-1-79

Any day I expect 20 copies each of issues 1-4 of 'International Chess'  
a beautiful and informative color magazine printed 12 times a year in  
Great Britain. I am offering these for \$2.50/copy while they last.  
The cover price is  $1\frac{1}{2}$  pounds = \$3.45

If you are not interested in any of these offers please pass this price list on  
to a friend. I will appreciate your help.

Thanks,

*Max Burkett*
