Dear sir

"Answer to "Football chess" appeared last Sunday as you no doubt saw.

Am sending your address to Alfred N Pray the greatest Kriegspiel authority in U S. He will answer your third question.

Regarding Forsyth notation: Begin from upper lefthand corner of diagram, read each of the 8 ranks from left to right as you would lines of page, the capitals are white pieces, small letters are black pieces, numerals show number of empty squares between and semi-colons to divide the ranks. Eight squares must be accounted for on each rank. Is this clear?
