Dear Jacqueline:

This letter rather the first part of it was written Friday about midnight next day I was going to mail it then I find out that it would not go out until Monday so I tough I'll wait so I can write more news about the tournament. I have been having a pretty bad time as my hay-fever does not get any better and this is a big handycap to give! during my game against Bolbochan I used up 2 hours for 12 moves! I simple could not think straight, in a position where I know or at list should know what to do! I have been taken Pyri-Benzamine, otherwise my ~~K~~ nose will runn and ~~wit~~ my eyes will iche, this in the other hand dopes me up. So there is nothing one can do but take it.
