Tallinn, April 25th, 1963.

Dear George,

You have probably already received my previous letter from April 13th, with some commentaries about the World Championship match. In this letter you will find some more remarks on the halfway of this great battle. Also a game with short annotation is included.

About our telegraph game you will find more short analysis, concerning the moves 19-26. Now the telegrams are running quite regularly and there is not any need for repetition.

May I ask a great favour for me? Included in this letter you will find a certificate for the Popular Photography magazine to renew the subscription. Would you be so kind and send \$ 11 to the editors, including the certificate? I cannot send any money from here and would, of course, settle the matter with you on our next meeting. Thank you very much.

Please excuse me for writing you the articles in German, but it is much more easier for me to do so, and you know the German language as well.

With kindest regards

Yours sincerely

*Paul Keres*
