Attention: Mr. Massey

Dear Sir:

Enclosed is a chess event item. Since you do not have your chess column anymore Mr. Massey (I'm sure he is the one I spoke to) told me if I had any event to report to just send it in to you and it would be published in THE NEWS.

The event reported here took place last night and there are quite a few interested parties. We had some 20 spectators and this is pretty good for an ordinary chess team match. Another reason it is of interest is the fact the Precita Valley Chess Club is the city's newest, sponsored by the Precita Valley Community Center which is an agency of the Community Chest. Quite a few fans asked me when this club would hold its championship tourney and I told them to watch for the announcement in the SAN FRANCISCO NEWS. I told them it will probably be in Saturday's paper.

As I told Mr. Massey quite a few chess fans really miss the chess column but chess players don't seem to be the type to make their desires heard. They'll voice their opinions with fellow chess players but won't take the time out to tell anybody where their opinion will have affect. Perhaps I'm an exception for I don't mind saying one bit that I thought that Imre Konig especially wrote a very interesting column.

Many thanks for your kind attention and I trust the enclosed item will appear in THE NEWS.

Very truly yours,

Jim Reynolds  
P. V. Club Director
