

ARBITER

Sirs:

I am very enthusiastic about CHESS REVIEW both as an old chess player (with emphasis on the "playing" rather than the student angle) and also as an old daily newspaper publisher and editor (the North China Star of Tientsin, China). For years I was President of the Tientsin Chess Club, composed mostly of Red and White Russians who disagreed on everything except chess and had an American President because he was neither Red nor White. The Russians, as you know, are most enthusiastic chess players!
